

ROCKWELD

Customisable Gabion Walling

Sophisticated designs
to enhance your space

Rockweld gabions are a functional landscape feature, which is highly durable and visually striking.

Custom designed and built on site by our experienced and passionate gabion installers.

We pride ourselves on our professional and efficient installation of all gabion products.

Who we are

Director Paul Mysiszczew has been in the construction industry for over 25 years and has worked in a range of areas including civil, commercial, industrial and mining.

Prospect Contractors was established in 1984 in South Australia, since then we have grown considerably and now operate Australia wide. Paul and the team's expertise in Gabion installation have earned the company accolades such as Master Builder of the Year, Master Landscapers of South Australia, and multiple commendations from the Civil Construction Federation.

Our management team efficiently control all aspects of the business including: project management, administration, quality management system, safety and environment and 3D Design. The team's combined knowledge and experience guarantees exceptional outcomes for our clients.

All our staff are trained in the installation of weld mesh products. Staff also receive training in working at heights, first aid, skid steer and excavator operations, defensive driving, and WHS procedures.

Excellence

Rock finishes

We source size graded and dense rock types from specialist local quarries. This ensures the longevity and excellent aesthetic of our Rockweld walls. We currently install with Bluestone, Sandstone and Riverpebble.

Our Rockweld installation options include:

Tipped in

Smaller rock is tipped in by an excavator or by hand.

Hand faced

Larger rock is placed in by hand to create a mosaic effect. This option is more labour intensive.

01

Rockweld Customisable Gabion Walling

- 01 Sandstone - Hand faced
- 02 Bluestone - Hand faced
- 03 Bluestone - Tipped in
- 04 Sandstone - Tipped in
- 05 Riverpebble - Tipped in

Retaining walls

Retaining with Rockweld enables a much thinner retaining solution to traditional gabions and can be customised to suit any design.

They are durable, sturdy and allow water to drain through, preventing hydrostatic pressure to build up.

Garden beds, seating and stairs can be incorporated into your Rockweld retaining wall.

Fencing

Rockweld fences are one of the most secure fences on the market as they work as both collision and noise barriers. They are long lasting and require minimal to zero maintenance. Rockweld fences suit many styles of home, as the natural rock creates a timeless look. A great privacy screen and stunning facade for your home.

Seating

A functional landscape feature which is highly durable and visually striking. Customisable Rockwell seating is fully supplied and installed by Prospect Contractors.

Bench Seating Options:

- Decking Timber
- Recycled Decking Timber
- Red Gum Slab
- Recycled Plastic Composite

Feature walls

Have any creative ideas for a Rockweld landscape feature?
We are happy to work with you to create something original.

Reduce noise, add privacy and add style to any space with a Rockweld feature piece.

Quality Assurance

Quality Policy ISO 9001:2015

Prospect Contractors is an Australian business specialising in the installation of Gabion structures for aesthetic benefit, noise reduction, soil stabilisation, wetland construction and erosion protection.

Our philosophy is to “provide quality products and services that suit the needs of our clients while offering an environmentally friendly solution”. To assist us in realising this philosophy we have implemented a Quality Management System certified to ISO 9001:2015

Prospect Contractors will ensure that:

- all employees are trained in the requirements of the Quality Management System,
- the System is continually reviewed and improved, and that
- the following strategic objectives form the basis for the measure of our success:
 1. To create and maintain ongoing client relationships through a commitment to excellence in product quality and customer service
 2. To provide the training and resources to ensure a safe and enjoyable work environment for all of our staff.
 3. To continue to employ best practice in the design and construction of our products allowing our reputation to serve as our method of advertising.
 4. To ensure ongoing compliance with the ISO 9001, ISO 14001 and ISO 45001 standards as well as contractual and regulatory requirements
 5. To be the Gabion installer of choice throughout Australia.

These strategic objectives are supported by related specific targets. Performance against our objectives and targets is monitored on a monthly basis providing ongoing evidence of our success against the strategic objectives state above.

Health & Safety Policy ISO 45001:2018

Prospect Contractors is an Australian business specialising in the installation of Gabion structures for aesthetic benefit, noise reduction, soil stabilisation, wetland construction and erosion protection.

Prospect Contractors are committed to making sure that all employees and subcontractors are safe from injury and risks to health while at work. The owner as the Responsible Officer of the business considers that the health, safety and welfare of the employees, customers and subcontractors is of primary importance and is ranked equally with all other activities of the business. We aim to provide a healthy and safe work place and will comply with all legal requirements to provide:

- a safe and healthy working environment for our employees and subcontractors
- safe systems of work and plant and materials in a safe condition.
- the necessary information, instruction, training, and supervision to make sure that each employee is safe from injury and risks to health.
- effective ways of consulting and communicating with the workforce and their representatives on all occupational health, safety and welfare issues.
- effective ways of reporting, recording, and investigating all injuries, work-related illness and ‘near misses’ in the workplace.
- effective rehabilitation measure for employees who suffer work-related injuries and illness.
- a safe environment for all customers and visitors.

Prospect Contractors require that all employees and subcontractors cooperate in the achievement of these objectives, together with our customers to assist in the prevention of injury to themselves and others.

These objectives are supported by related specific targets. Performance against our objectives and targets is monitored on a monthly basis providing ongoing evidence of our success against the strategic objectives stated above.

Environmental Policy ISO 14001

Prospect Contractors is an Australian business specialising in the installation of Gabion structures for aesthetic benefit, noise reduction, soil stabilisation, wetland construction and erosion protection.

Our philosophy is to “provide quality products and services that suit the needs of our clients while offering an environmentally friendly solution”. To assist us in realising this philosophy, we have implemented an Environmental Management System accredited to ISO 14001.

Although the work that Prospect Contractors undertakes provides protection for the environment, we recognise that some of our activities also pose an environmental risk.

Prospect Contractors is committed to:

- protecting and improving the environment
- identifying and mitigating hazards that may result in negative impacts on the environment
- compliance with all appropriate regulatory requirements and codes of practice relating to environmental impacts of our business
- Implementation and maintenance of an Environmental Management System [EMS] in accordance with the requirements of ISO 14001:2015.

Prospect Contractors will demonstrate this commitment by:

- ensuring adequate resources, with appropriate training and competence, are provided by top management to comply with the requirements of the EMS
- open discussion with clients and interested parties on environmental issues of mutual interest
- development of environmental objectives and targets as part of our business planning process.
- ensuring all relevant aspects of the EMS are communicated to and understood by all staff.
